## Mediator Song

Melodi: Puff the Magic Dragon

1.

In a pretty city, close by the sea  
A group of people gathered - all they wanted were to see,  
If the world could be a nicer place to stay,  
Where less would lose their face and more would find a better way.

CH:

They were mediators, they could change a lot  
When people got a problem - feeling they were in the mud  
They would help the parties with the ADR  
The tools of mediation help you like a shining star.

2. It was such a wonder in the legal field  
The new philosophy was great and ADR could be  
More an innovation than you could expect  
Alarming Drop in Revenue was not to be "detect'd".

CH:

They were mediators, they could change a lot  
When people got a problem - feeling they were in the mud  
They would help the parties with the ADR  
The tools of mediation help you like a shining star.

3.

Therefore mediators travel round the world  
They help each other spread the message: "This is really worth!"  
What you get returned is much more smile and fun  
In that case we can say that Planet Earth has really won.

CH:

We are mediators, we can change a lot  
When people get a problem - feeling they are in the mud  
We can help the parties with the ADR  
The tools of mediation help you not to use the Bar.

A song by Pia Deleuran made on the way from Copenhagen, Denmark to Honolulu, Hawaii used 1. time in a presentation in University of Hawai'i about mediator education/training, October 2006.

After that used:

- Western Connecticut State University, October 2006
- Trinity 7 modul 2 – Danish Mediator education by The Bar and Law Society, November 2006.
- Sátt-group 2 in Iceland, April 2008
- MATA-debate, London, October 2008
